

LOTTERY-SELECTED PANELS

A New Kind of Democracy

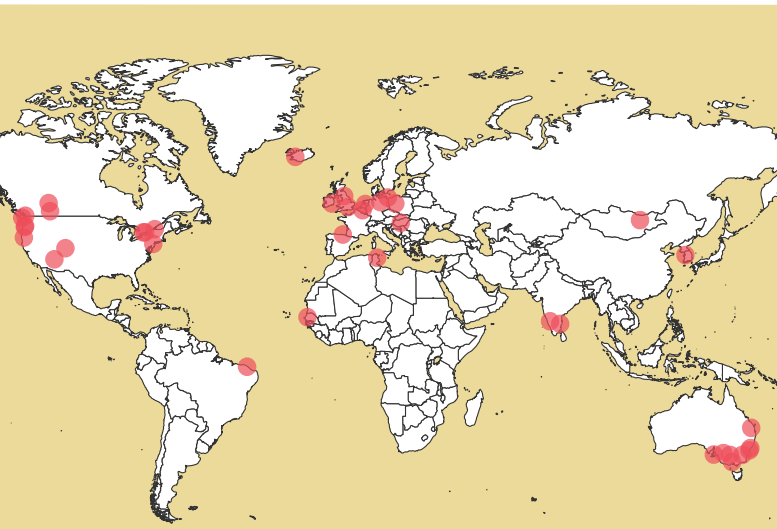

Lottery-Selected Panels are innovative democratic systems that help governments tackle difficult policy questions.

Panelists are everyday people capable of extraordinary collaboration and sophisticated decision making.

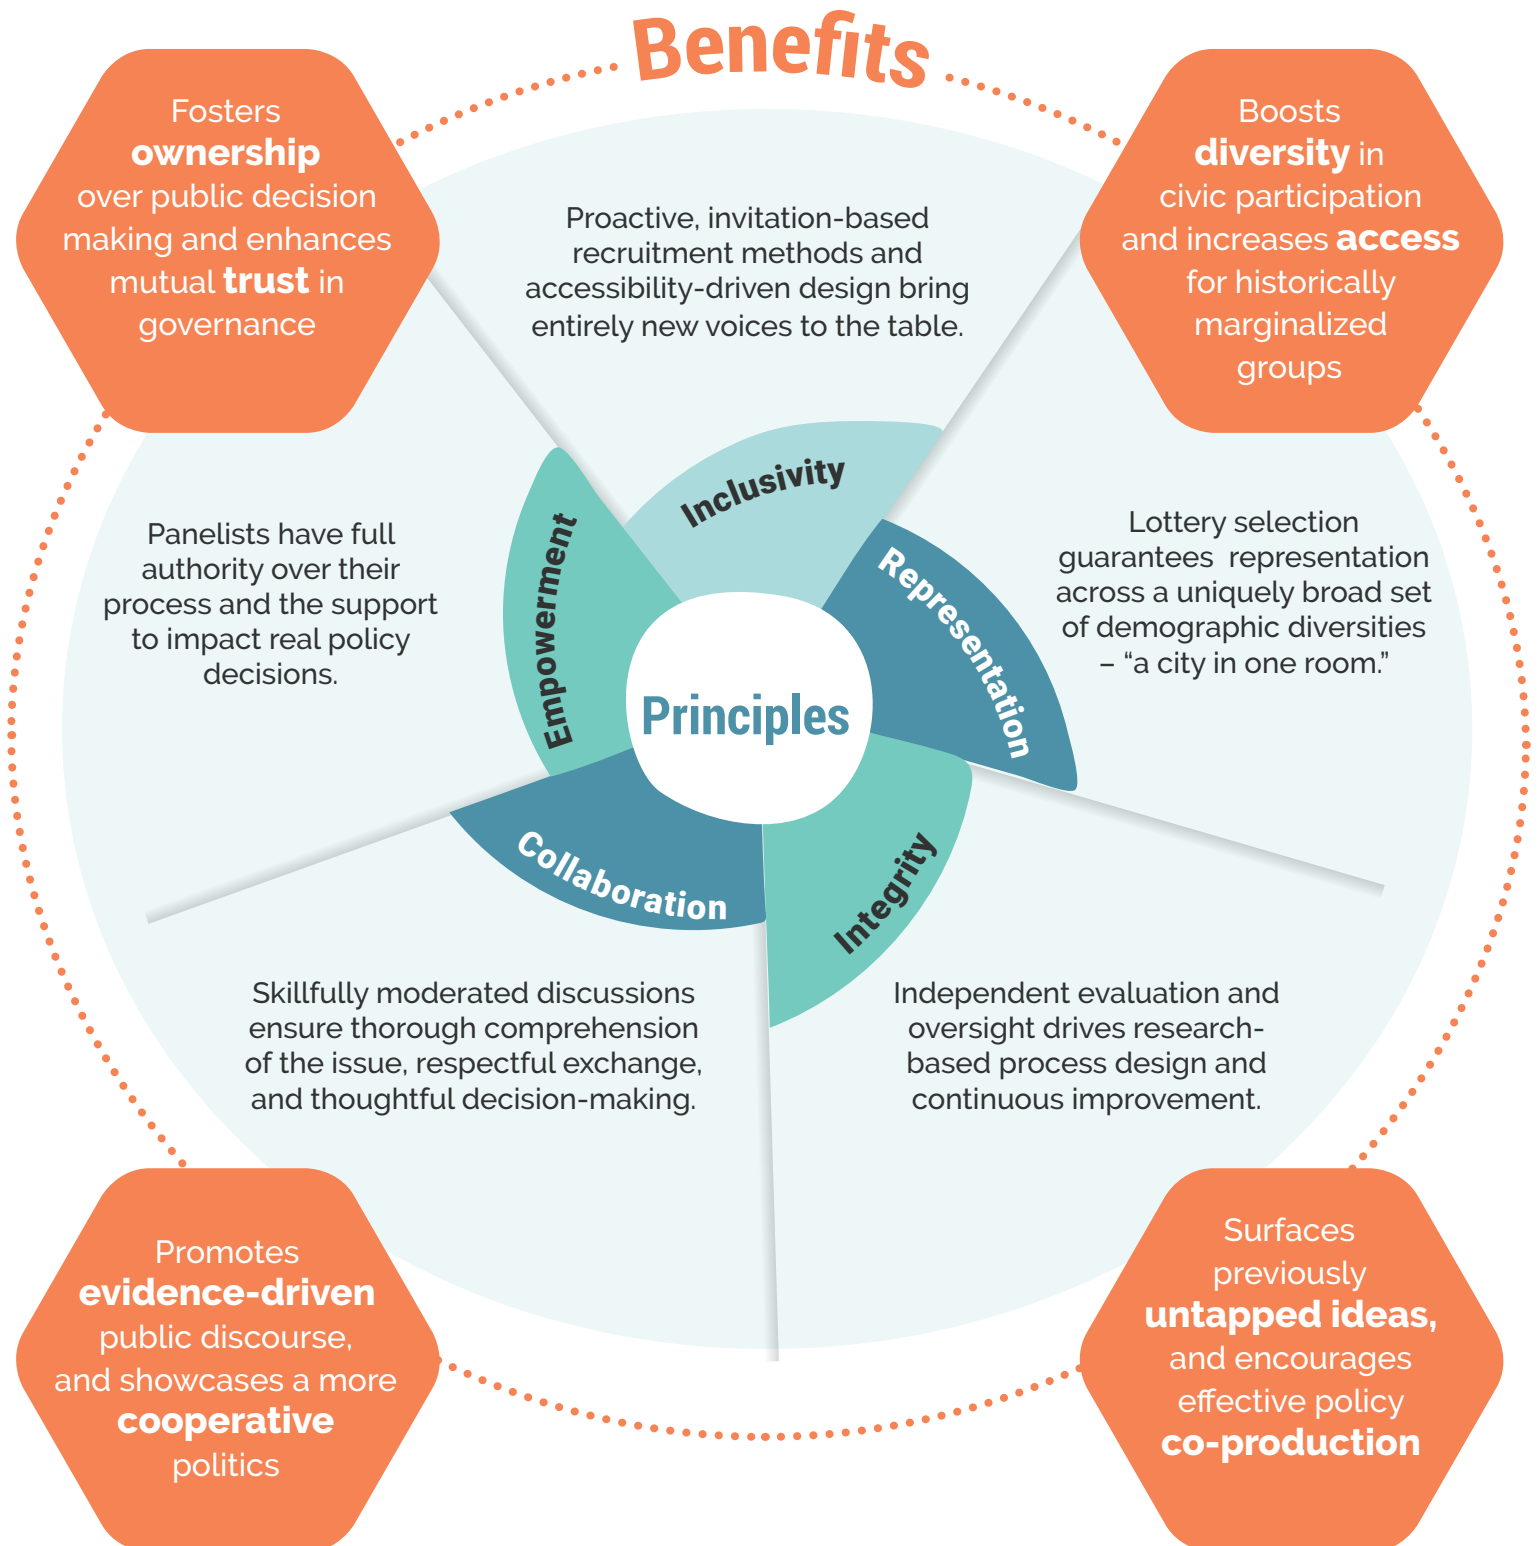

Democratic Lotteries ensure all of us – from every walk of life – have a place in public decision-making. Panels reflect the many diversities of the communities they serve.

In-Depth Deliberation changes decision-making itself. Panelists hear from experts and stakeholders on all sides of an issue, consider policy options, and collaboratively write recommendations.

Around the world, governments are employing Lottery-Selected Panels – often called Citizens' Juries or Citizens' Assemblies – to put people at the center of governance. Healthy Democracy has designed and convened panels in five U.S. states and three countries since 2008. We are best known for Oregon's Citizens' Initiative Review (CIR), which is one of the most researched deliberative processes in the world and was one of the first modern lottery-selected processes institutionalized in government.

of Lottery-Selected Panels

Selection

1

Invitation

A group of randomly selected residential addresses receive a letter inviting them to participate in the Panel.

5k-15k
letters mailed

2

Democratic Lottery

Of those who respond to the invitation, a Panel is selected that represents the unique demographic characteristics of that community.

Education Attainment

- No Diploma
- High school diploma
- Some college
- Bachelor's degree

Population

Respondents

Panelists

*"Life often feels like a zero sum game. Here, whenever I contributed, **others gave, too.** That's really exceptional in this world."*

- Dylan, Former Panelist

*"This opportunity to work side by side with fellow voters has affirmed my belief in the **value of public participation** in the democratic process."*

- Melissa, Former Panelist

In-Room

3

Information Gathering

The Panel interviews dozens of experts and stakeholders, and conducts its own research on the topic at hand. With external support, Panelists filter information and conduct gaps analyses to ensure information is strong, reliable, and reflects many perspectives on the issue.

4

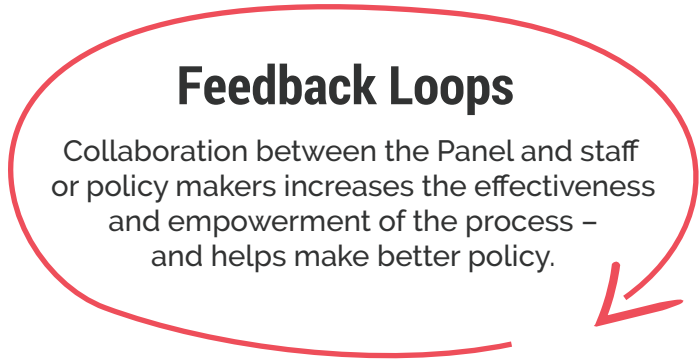

Deliberation

Panelists define decision-making criteria, consider potential policy options, and prioritize alternatives through extensive discussions over multiple days. Panelists spend most of their time in small groups with trained professional moderators. Meticulous process designs enable collaboration between iterative small and large groups.

Feedback Loops

Collaboration between the Panel and staff or policy makers increases the effectiveness and empowerment of the process – and helps make better policy.

5

Recommendations

The Panel produces a set of policy recommendations, including rationales and any dissenting opinions. Their report – written entirely in their words – carries an inherent legitimacy with the public and decision makers. Policy recommendations can inform any stage of the policy process:

TYPES OF LOTTERY-SELECTED PANELS

Panels share many core features, but can come in many shapes and sizes – depending on the complexity of the topic at hand and resources available. They can either supplement current public engagement practices, replace existing bodies, or create new democratic infrastructure. We start from the standard templates below, then custom-design each Panel using the options on the following page.

ONE-TIME NEED		ONGOING NEEDS	
Lower Complexity	Higher Complexity	Lower Complexity	Higher Complexity
CLASSIC PANEL <i>Best for a well-defined single policy topic</i> (e.g., a new hiring policy or the siting of a new library)	IN-DEPTH PANEL <i>Best for a more expansive, technical, or contentious policy issue</i> (e.g., a downtown plan or Metro-area visioning process)	STANDING PANEL <i>Best for periodic feedback on a narrow set of policy topics</i> (e.g., a public health advisory committee)	GOVERNANCE PANEL <i>Best for serving multiple departments or a core governance function</i> (e.g., civic engagement oversight commission)
20–30 Panelists	30–200+ Panelists	20–30 Panelists (overlapping terms)	20–40 Panelists (overlapping terms)
4–6 full days	5–15+ full days	8–12+ full days/yr	10–20+ full days/yr
10+ information sources	15+ information sources	15+ information sources/yr	20+ information sources/yr
5–10 page report (including criteria & recommendations)	10–20 page report (including criteria, rationales & recommendations)	Brief, periodic reports	Brief, periodic reports

1+ feedback loop	2+ feedback loops	2+ feedback loops	3+ feedback loops
Milwaukie Jury on Council Pay 20 Panelists • 28 hrs Over a four-day weekend in 2019, residents of this 20,000-person Oregon city advised decision makers on a tough issue: how much to compensate City Councillors. The Council later passed the Panel's recommendations into law.	Eugene Review Panel on Housing 29 Panelists • 35 hrs From Nov. 2020 to April 2021, the Panel advised the City on significant housing code changes. The Panel heard from 20 stakeholders and experts, developed a set of core principles, then subsequently reviewed the City's draft code proposals.	Toronto Planning Review Panel 28–32 Panelists • 64+ hrs/yr Formed in 2015, this Panel periodically consults on major city planning initiatives such as transportation plans, neighborhood visioning, and new community amenities. Each Panelist serves a 2-year term.	Madrid Observatorio 49 Panelists • 64+ hrs/yr In 2019, the Spanish capital created a permanent Panel as an ongoing fixture of public participation. Panelists reviewed popular proposals raised by fellow residents on an online platform, then refined and prioritized proposals to send to a local referendum.
